

## CUBE WAS BORN BY AUSTRALIANS FOR AUSTRALIA.

Cube was established by a team of professionals whose focus is to deliver Cloud Storage to the security industry. As the demand of Cloud storage grows, Cube recognised the importance in the way footage should be stored to ensure the safety and security of the footage. A young team of professionals with experience in the IT industry was established to find a solution to the ever-grown problem of footage loss due to faulty hard drive and damaged or stolen recorders. Cube was born to solve this problem by introducing security on the Cloud.

# CUBE CLOUD AIMS TO BE THE PIONEER IN CCTV CLOUD STORAGE

## CUBE CLOUD ADVANCED VIDEO MONITORING PLATFORM

- Performs flexible selections on appropriate cloud adapters
- Eliminates the cost of hardware/software regular upgrades
- Provides advanced intelligent analytics features
- Removes financial and technical hurdles

# CUBE SOLAR CCTV

Cloud Supported

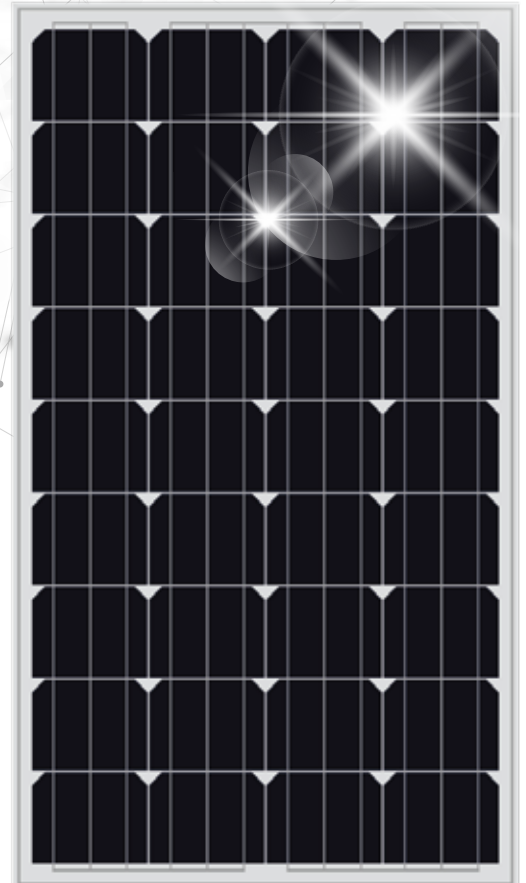

## CUBE SOLAR CCTV

-  Varies Solar package to choose from
-  Backup footage on the Cloud
-  Recurring revenue for installers
-  Fast charging technology

## WHERE TO BUY

**TRNTECH** Exclusive Distribution

- Free Shipping
- Free Configuration
- Detailed Guidance

**PACKAGE 1**

- Perfect for residential constructions
- 1 Active Deterrence camera
- Fast charging
- 4G upon request

**PACKAGE 2**

- Perfect for commercial constructions
- 1 180-degree PTZ camera
- Fast charging
- 4G upon request

**PACKAGE 3**

- Perfect for industrial constructions
- 1 PTZ and 2 Motorised Bullet cameras
- Fast charging
- 4G upon request

# INTELLIGENT IP CAMERA

## ADVANCED AI & STARLIGHT TECHNOLOGY

CUBE Intelligent Network Cameras are the next generation of security monitoring. It adopts one of the most advanced AI technologies with deep learning algorithms and surveillance analytics, which allow the camera to quickly identify intruders and alert users of an event before it happens.

Cube Network Cameras are packed with Smart AI features such as facial recognition, facial detection, next level smart motion detection and perimeter detection. Sophisticated, yet easy to use and install. Cube Network Cameras provides high quality video, audio and transmission to allow smooth and seamless monitoring.

## SMART NETWORK VIDEO RECORDERS

CUBE AI Network Video Recorder is the future of video storage. It is equipped with next generation Artificial Intelligence and Deep Learning algorithms.

Smart Motion Detection, Human detection and Number plate recognition makes searching for recorded footage easier and faster with CUBE NVR.

- Certified & Qualified technical engineers •*
- Warranty from installers to suppliers •*
- Latest technology updates •*
- CUBE Cloud supported •*

Cloud Supported

-  **CUBE Cloud adapters fully supported**
-  **Secure footages online**
-  **Protected by the largest UK-based server**
